

## Part Qualified or Trainee / CPA EPA – Electronics Background

Stratagem IPM has established an enviable reputation throughout the Lifescience, Cleantech and Hi-tech communities for its strategic approach to IP management to such an extent that the physical sciences part of the business is currently booming and requires more dedicated professional support.

Stratagem clients are predominantly well-funded Venture Capital-backed emerging companies, start-ups, multi-nationals, but also include academic and government institutions, venture capitalists and other investor groups, all of which can benefit from its unique approach to the management and understanding of the commercial value of IP assets in such businesses.

We now require a high-calibre part qualified CPA / EPA or trainee to join the team in our Cambridge office to assist us with a rapidly growing portfolio in the electronics area. If you are looking for a company where your talents can make a significant contribution and your background include:

- A electronics degree with good knowledge of software and applications and ideally experience in industry
- Managing IP portfolios on a global scale
- First rate communication skills
- Ambition to play a leading role in an exciting growing company

...then we are very interested in hearing from you.

Please send your CV including current or expected remuneration in confidence to Patricia Willett at the address below or by email to [Patricia.willett@stratagemipm.co.uk](mailto:Patricia.willett@stratagemipm.co.uk)
